Morning Car Swap – Evening Car Swap

drive to one office to get the key to the other car to drive to the ship. At

OMG a fiyah!!

off the 'treasure' (out of cal/out for repair modules) swap keys/change cars and head home, only to do it again. It's kind of like Pitfall or SkiFree (games that don't end, the score just keeps going up.... I wonder if I'm getting points and what I can do with them...)

Another great day today 😊  
Sometimes I feel like I'm in a video game, I start out the morning and

It get a bit foggy on the drive sometimes...

the ship I swap around little modules (sensors and whatnottery). Then I hop in the car and drive back. I drop

Doug looks surprised to see me at the boat, perhaps I've gotten the drop on him as he was about to swipe the batteries from my survival suit light!

Swapping out the sensors and putting the mast back up

Boom ! Weather!!!

There's me changing out one of our combined meteorological sensor suites ☺ Hooray for NIST Traceable weather metrics!! While at –sea you can see weather reports from the Wecoma (which are submitted to / used by a national forecasting) center-here:

<http://www.sailwx.info/shiptrack/shipposition.phtml?call=WSD7079>

(That only gets updated whilst we are at sea)

Matt's looking a bit disoriented..... Danielle shows off some team handiwork

After that I stopped by and saw my friends at the solar car office, they were working away on parts for the new vehicle ☺ I picked up Danielle and we worked a bit more on the Laser Fence. Oh!!! On our way there we stopped off for some chipotle (which is apparently far more exciting

Chipotle = **This** exciting!! Who knew?!

Yes....That is cougar print Duct Tape, Dot, Dot, Dot

That's Danielle's 'Sad Brick' face ☹ It's OK Brick!!! I'll get you some nifty Duct tape, heck, who knows, with a little touch-up paint you might even have a shot with that saucy cougar car!

than I knew) and saw this awesome car repair job!! It was so awesome that poor brick got jealous ☹

After that I swiped a teeny pre-workout snack at Yogurt Xtreme, Oh! And that reminds me, a while ago my grandma wrote to ask if Rachel was still in the picture. I've been waiting to properly address that point. She is indeed in **the** picture, as a matter of fact, she's in *this* picture!! You just have to look really really hard because she's hiding in the phone, She's on the second year of a one year

'temporary' teaching job in Illinois, and she swears that she'll be back soon ☺ (I swear I'm not the mayor from Chocolat! No really, I'm the Johnny Depp! Well not literally, exactly, but I played a guitar... once...)

These machines let you race each other, I'd be doing better if Stephanie wasn't laughing at me bouncing my machine across the floor into the girl on the treadmill behind us :p

anything after all our sore muscles from the day before :p It took us like twice the specified time to finish our workout, but I was glad I'd unloaded the extra yogurt calories, they came in handy, every single one ☺ That's about my day ☺ I hope everyone out there had a great one as well!

**Anyhow**, I had another great workout with Steph, well **I** felt great about it despite the fact that Stephanie and I spent most of our time laughing at each other for not being able to do

Let's get it over with now "hahaha pale pasty legs" :p You guys are the reason I never wear shorts :p Stephanie swears that this is a real stretch....

Until tomorrow!

Dave
