

Dave's Blarg!

2011-Nov-03

I'm wearing my hottest shorts to make up for the cold

Today started off at 0-dark thirty with another 'workout', although after our performance yesterday Steph and I decided to go swimming instead. We had a good time and I think that our muscles really needed the break. Lucky for our guns our schedules line up so that we don't have to work out tomorrow at all :D

Did I mention that I have a waterproof camera? ☺

Steph showing me the bottom of the hot tub. That is **not** a balding spot, it's just a bad camera angle...

Our 'workout' went pretty well, at least better than it did for certain other people....

I've had some bad workouts, but I've never left the gym feet first. As far as I could tell he faceplanted on his bike on his way to the gym, he seemed to have a pretty good sense of humor about his missing teeth. This only serves to reinforce my theory that working out can be extremely hazardous...

Chad, Kelly, and THUNDERCATS!!!

Anyhow, I spent the morning working or Kelly and Chad and headed off to lunch with the lady who used to have my job (Linda). She's a riot and she has a job *chock* full of tps reports now, mwahaha :D Have I ever mentioned that I love my job?

I stopped by the gun store after lunch looking for airsoft stuff, and they had tannerite targets.

Tannerite, Read: legal explosive.

It's like a good time waiting for a place to happen. I would have gotten some, but I have absolutely

no idea what I'd do

There was even a video on the tv showing how to use the stuff, which included a safety section with a guy beating some of the explosive with a sledgehammer....

with it. I might get some anyhow... :p

Thanks to my friend Marco and an awesome article he sent me, I knew all about good ol' tannerite. ☺

http://www.cracked.com/article_17016_7-items-you-wont-believe-are-actually-legal.html

I've been trying not to send out links to things, but that's a mighty educational article...

I'm not sure that I want to eat at a place that burritos go to when they die, even if they *were* good burritos....

Turns out that dead burritos aren't all *that* bad....

The highlight of my afternoon was Stephanie stopping by to drop off some mail in her superfly university postal truck (Read, do a DnD from her LLV in official postal lingo :p)

Steph in the Fly Rider ☺

Danielle gets really excited about alots... Although I can't see one in this picture...

And starts jumping on people (let me tell you about my broken leg one of these days...)

After work I stopped by the solar car team meeting and got home to find out that some of the final components for the laser obstacle course had arrived :D

Hooray mirrors and camera mounts!! I can't wait for Saturday!!

Have a great day everyone!!one!

Dave
