

Dave's Blarg!

2011-Nov-13

Last night was awesome!!! I hung out with Hai-Yue and some of the Solar Vehicle Team as they machined some parts for the new solar vehicle. (That was while I was writing yesterday's blarg)

This mill needs more laser beams...

added a garage onto their house and stocked it all on their own. (Did you know that you can find CNC mills on craigslist?!) They got a fair bit of one of the wheels done and we had a nice bite to eat ☺

Hai-Yue and Kathy (the husband and wife who run the team) are *Incredibly Awesome* (and more on that later). When they had trouble getting projects for the solar car team into the OSU Engineering Department Shop, they

Hai-Yue is looking up laser beams one the internets... I hope.. ☺

After that I went out to meet my friend Laurie who had *just* arrived in town from Seattle ☺ I gave her a hand moving in ☺

Moving Laurie in ☺

And made sure that she was well stocked ☺

Chocolate Peanut Butter, all a growing body needs ☺

After that Team Awesome began to assemble, and a ruckus was had ☺

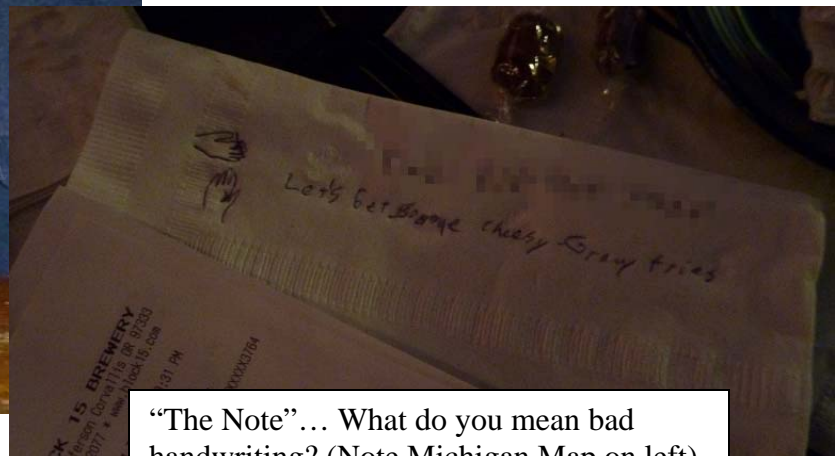

Yes, it **is** still a toast when it's just diet soda :p

[Jaws Soundtrack]

Someone in this group **Might** have maybe kind of tried to slip their # to the waitress (Hint, she's from flint, woot!!) (extra hint, she recognized the cultural significance of getting a side of gravy and a side of cheese with our appetizer of fries!!!) Sadly, this hypothetical anonymous person has yet to receive a call....

"The Note"... What do you mean bad handwriting? (Note Michigan Map on left)

We went out to *Both* of the awesome dance clubs in Corvallis and danced up a *Storm*.

Team Awesome Owns The Floor!

We went out early enough to have the dance floors to ourselves, *Not* that we made a scene of ourselves, who us? Never :p

Team Awesome, not making a scene at all 😊

It doesn't just look like
it, this *is* the authentic
Charlie brown dance 😊

Kristina Rocks!

This *might* have been
a poorly aimed group
shot... *might* have...

Wooooooooooooooooot!

"Just Dance" 😊

Team Awesome, fully assembled ☺

We had an absolute blast ☺

Oh! And two other things! “Dancing boots?” You may have asked? Yes indeed! Magnum makes the best ever all purpose dance-work-casual wear boots in the universe! They’re waterproof, with a side zip for fast donning, a composite ASNI rated safety toe *And* they catch eyes! Check it out!

The Magnum all-purpose Dance-Combat-Safety boot turns heads ☺

That, and, Keep an eye on your friends when you go out!! You never know when someone's going to sneak a sharpie tattoo on you! Ahhhhhhhhhhh!!

Tough looking eh? I'm thinking about making it permanent... :D

That was about it for yesterday evening, it was a heck of a blast!

This morning Kristina and I went on a run and took time to catch up ☺ She's really awesome and has an art gallery up in Portland with her boyfriend. I'm so doing a supplemental blarg post about going to her next art show! That reminds me! For those of you who've read since the start I am only planning to keep this going on a daily basis for a month, which runs out on the 19th, Sooooooooooooooooooooo, if you'd like to be included in future updates (and who wouldn't!!) (Original recipients were selected by fiat) Then send me an email and I'll make sure to put you on the list ☺

What do you mean 'after breakfast re-enactment' :p

Then I stopped by Kathy and Hai-Yue's for a bit and hung out while they modified their bed frame to accept their recently ordered double extra king bed (they are my heroes) ☺

They're heavily modifying the old frame

I wanted to come up with a cool caption for this, but every time I look at the picture I just hear "mMmMrrreeeyow" [the table saw noise] in my head :p

Double extra king with emergency food storage coming right up ☺

After that Danielle and Laurie and I went to Chipotle and had some Yogurt Extreme (Mmmmmm, calories by the pound!)

This *really is* a picture of all three of us! It's Danielle remembering to smile, while Laurie tries to dodge out of frame and I try to push her back in :p In the future I will just be able to tell the computer to 'enhance' and recreate Laurie and I from the reflection in the window, but for now it's getting late ☺

Tomorrow is the last day of loading before we head out on the ship. Have a great day everyone!

Dave
